MARCOR

Mechanical Asbestos Removal, Inc.

February 12, 1987

Mr. Stanley W. Polmateer
The Gleason Works
1000 University Avenue
P.O. Box 22970
Rochester, NY 14692

Dear Mr. Polmateer:

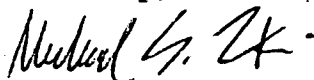

Enclosed you will find a copy of the literature that you requested. I encourage you to review this material and contact some of our references so that you may be better able to judge the quality of our workmanship and extent of our expertise.

It is essential that asbestos containing materials be handled properly to avoid endangering the health and safety of all those involved. A poorly performed asbestos abatement job can create a much greater hazard than that which previously existed.

Should you have any questions or be in need of assistance, please feel free to call me.

Thank you for your consideration.

Sincerely,

Michael S. Zink
Division Manager
