Subject: RE: BHRC - Lyondell showing interest

Lorraine:

Claude White works with Marcy and would most likely be in a position to garner Lyondell support. I approached both Claude and David Hunt of Dow about the study back in August (at a BTX VCCEP meeting in Houston), with David expressing interest and Claude expressing no interest. If there is hope of getting another opportunity with Lyondell the route might well be via continuing the dialogue via Marcy. Marcy is thoughtful about such things and Claude respects her opinion.

Stuart

Importance: High

To All -

Just answered this request from Equistar/Lyondell resulting from the presentation given at ACC. [I know Marcy from other hydrocarbon solvent work with ACC - hence the informal greeting.]

Does anyone have contacts at Lyondell to help us get our foot in the door?

Thanks,
Lorraine

Subject: RE: Presentation Materials for the Shanghai Health Study

Hi Marcy -

Things are cooking along here at API - just like most folks, we have too much work and not enough people - keeps us off the streets, though.

Attached is an electronic version of the presentation. I've added one additional slide, too - it actually lists the members of the scientific review panel. We are quite proud of the caliber of the international experts providing peer review. Please feel free to distribute the presentation within Lyondell. . . . and please don't hesitate to contact me with any questions or comments you may have on the program.

If Lyondell is interested in getting more information (this hardly scratches the surface) we would be happy to meet with you in person or via conference call, or send you additional written (presentations) information.

Thanks for your interest,
Lorraine

Lorraine,

Hi, I hope all is well with you and API.

I have received a paper copy of your presentation materials on the subject study that was given to the ACC BTX group on May 8th and was wondering if an electronic copy of this information was available that you could provide to me.

Thanks for considering my request.

Take care.

Marcy
