Good afternoon –

I am sending this letter from Representative Dusty Johnson (R-SD) to Secretary Doug Burgum, respectfully requesting a meeting regarding the creation of the National Garden of American Heroes. He has identified 40 acres, east of Mount Rushmore National Monument in Keystone, South Dakota, and would like the opportunity to present his case for selection of this site for the statutory garden.

I've also included a map of the property for the proposed site.

Thank you, and we look forward to hearing back from your team!
