

European Commission
Mr. Patrick Child, Deputy Director General
DG Environment

Dear Mr. Child,

I would like to express my sincere thanks for the productive meeting on 28th April regarding the European Commission's current work on the Chemical Strategy for Sustainability.

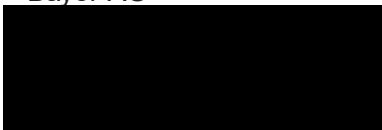

My colleagues and I were pleased to have such an informative and constructive discussion providing us with insights on the Commissions thinking on important topics like the CLP revision and the introduction of a group restriction for PFAS substances. We do hope that you found the meeting as valuable as we did.

As discussed, please find enclosed some further information regarding the innovation cycles in the plant protection industry. We look forward to working with the European Commission to continuously improve the availability of innovative plant protection solution for European farmers.

We would be very interested in continuing the conversation over the coming months. Please don't hesitate to contact us should you have any questions or require further information.

Yours sincerely,

Bayer AG
