CITATION COVER LETTER

TO: Longview Fiber Corp.
P. O. Box 639
Longview, WA 98132

Date May 8, 1973

Subject: Citation for Alleged Occupational Safety and Health Violation(s)

An inspection of a workplace under your operation, ownership, or control has revealed conditions which we believe do not comply with the provisions of the Occupational Safety and Health Act of 1970, 29 U.S.C. 651. The nature of such alleged violation(s) is described in the enclosed citation with references to applicable standards, rules, regulations, and provisions of the said Act. These conditions must be corrected on or before the date shown to the right of each violation therein.

The Act requires that a copy of the enclosed citation(s) be prominently posted "in a conspicuous place upon receipt" at or near each place a violation referred to in the citation occurred. It must remain posted until all violations cited therein are corrected, or for 3 working days, whichever period is longer. A sufficient number of copies of the attached citation(s) should be prepared to permit posting in accordance with the requirements of the Act.

If you contest the citation you may post a notice to this effect near the citation contested. The Act contains penalties for violation of the posting requirements.

You will soon be notified by certified mail whether or not a proposed penalty will be assessed as a result of the cited violation(s). You have the right to contest the citation(s), the proposed penalties, or both, before the Occupational Safety and Health Review Commission. The Review Commission is an independent quasi-judicial agency with authority to issue decisions regarding citations and proposed penalties. If you do contest, you must so notify the Area Director within 15 working days after receipt of the certified mail notice regarding proposed penalties. If you fail to contest within the 15 working day period, the citation and the proposed assessment of penalties shall be deemed to be a final order not subject to review by any court or agency.

An employee or representative of employees may file a notice to contest the time stated in the citation for the abatement of the alleged violation(s).

Alleged violations that are not contested shall be corrected within the abatement period specified in the citation. Failure to correct an alleged violation within the abatement period may result in a further proposed assessment of penalties.

As to alleged violations with an abatement period of 30 days or less, you are directed to promptly advise the Area Director as to the specific corrective action on each such violation and the date of such action.

Alleged violations having a longer abatement period will require a progress report at the end of each 30-day period. The progress report should detail what has been done, what remains to be done, and the time needed to fully abate each such violation. When the alleged violation is fully abated, the Area Director shall be so advised.

A followup inspection may be made for the purpose of ascertaining that you have posted the citations as required by the Act and corrected the alleged violations as you have reported. The Act provides that whoever knowingly gives false information is subject to a fine up to $10,000, imprisonment up to 6 months, or both.

If you wish additional information, you may direct such request to the undersigned at the address listed above.
