The temptation apparently became too strong, and John Quinn has thrown over former loyalties and principles to become the heir apparent of the Rolph political machine.

"These tempters of John R. Quinn did not pick him as crown prince of the Rolph succession because of his own merits. They have selected him as the one to grant the favors, spend the money, and save the jobs. By yielding to them he has raised as a definite, clear-cut issue for the approaching campaign whether there shall be a continuation or an end of Rolphism in California."

Richard Trevithick, an Englishman; designed and built the first locomotive to run on rails. In 1804, he demonstrated his machine's ability to haul heavily-laden ore cars several miles.

NOTE—In the above tabulation of the tides the daily tides are given in the order of their occurence, commencing with the early morning tide in the lefthand column and the succeeding tides as they occur, the fourth occurring the following morning.

The column of heights gives the elevation of each tide above or below the level of the Coast Survey chart soundings. The numbers are always additive to the chart depth unless preceded by an asterisk (*) when the numbers are subtracted from the depth given on the chart.

Charming and practical, when there are many guests, is the English country house breakfast. "Come down when you please and help yourself"

● More delicious, of course, are *center slices* of Hawaiian pineapple. They are the very choicest part of the fruit. Flawless in form. Loveliest in color. And as for flavor, theirs is the glorious ripe-pineapple tang in its fullest perfection. Libby gives you, at no extra cost, pineapple that is *exclusively center slices!* ● You'll enjoy Libby's *Crushed*, too. Delicate in texture, tart-fresh in flavor, it is just right for the Pineapple Cup which is also widely recommended for health. When buying pineapple, always specify *Libby's*. That's the way to be certain of *center slices*, and the finest Crushed.
