31 W. Congoleum was a member of the above-specified
32 associations and did not designate or pay dues for any
33 specific individual "representative."

34 RESPONSE TO INTERROGATORY NO. 14:

- 35 A. Asbestos Information Association/North America (1972-
36 1984); Resilient Floor Covering Institute (December,
37 1975, through September, 1980, and February, 1987
38 through the present).
39 B. Congoleum received no publications other than the AIA
40 Newsletter, News & Notes.

1 C. Congoleum employees attended meetings of the AIA
2 Technical Committee from 1976 through 1984, and also
3 attended meetings of the RFCI Technical Committee during
4 its membership in RFCI.

5 RESPONSE TO INTERROGATORY NO. 15:

6 No.

7 RESPONSE TO INTERROGATORY NO. 16:

8 Yes.

9 A. Congoleum has copies of reports of air-sampling studies
10 performed by Liberty Mutual Insurance Company.

11 B. Congoleum received one of the air-sampling studies in
12 1970. Congoleum cannot determine when it received the
13 remaining air-sampling studies.

14 C. Donald Golemme, Risk Manager, Congoleum Corporation.

15 RESPONSE TO INTERROGATORY NO. 17:

16 No.

17 RESPONSE TO INTERROGATORY NO. 18:

18 Yes.

19 A. Congoleum has maintained a Technical Library during the
20 time frame specified in these Interrogatories. The
21 library contains some materials relating to medicine and
22 safety, but the dates those materials were acquired are
23 unknown. Although Congoleum cannot determine the
24 precise year its Technical Library was established,
25 Congoleum states that the library was originally located
26 at 195 Belgrove Drive, Kearny, NJ, where Congoleum
27 commenced its operations in 1924.

28 B. The Technical Library is currently located at Con-

1 goleum's Technical Operations Center at 861 Sloan
2 Avenue, Trenton, New Jersey. The Technical Library was
3 previously located at Congoleum's facility at 195
4 Belgrove Drive in Kearny, New Jersey.

5 C. Congoleum's personnel records reveal the following
6 librarians:

7 Jean O'Boyle, Kearny, NJ, employed from 1960 through
8 1977.

9 Doris Fair, Trenton, NJ, employed from 1982 through
10 1983.

11 RESPONSE TO INTERROGATORY NO. 19:

12 Congoleum received information from Johns-Manville Cor-
13 poration, Carey Canada, Inc. and Lac D'Amiante Du Quebec (Lake
14 Asbestos) regarding the general issues of asbestos and health
15 beginning in the early 1970s. Donald Golemme is the custodian of
16 documents evidencing such information.

14 C. Congoleum has copies of some, but not all, documents
15 reflecting such medical examinations.

16 D. Donald Golemme.

17 RESPONSE TO INTERROGATORY NO. 25:

18 No.

19 RESPONSE TO INTERROGATORY NO. 26:

20 A. Congoleum believes the policies listed on Exhibit 1
21 provide coverage for asbestos-related personal injury
22 claims. The precise scope of coverage will depend on
23 the language of each policy, and, in some circumstances,
24 the courts' interpretation of the policy language.
25 Liberty Mutual has its principal place of business in
26 Dover, New Hampshire. Wausau Insurance has its prin-
27 cipal place of business in Wausau, Wisconsin.

28 B. See Exhibit 1.

- 1 C. See Exhibit 1.
2 D. Applicable dates of coverage are the same as the
3 effective policy dates.

12 C-G. Yes, 1947 thru 1983.

13 H. No.

14 RESPONS-CE TO INTERROGATORY NO. 31:

15 A-C. Attached as Exhibit 2 is a list of the asbestos-
16 containing products manufactured and sold by Congoleum,
17 including the names, brand names and dates of production for
18 each such product. The products listed on Exhibit 2 include
19 asphalt and vinyl asbestos tile; inlaid vinyl sheet goods,
20 cushioned inlaid vinyl sheet goods; homogeneous vinyl sheet
21 goods; chemically embossed cushioned vinyl flooring; and
22 vinyl sheet flooring.

23 In addition to products listed on Exhibit 2, Congoleum
24 developed an asbestos-containing wall-covering named
25 "Firechek." However, Congoleum sold only two four-foot rolls
26 of this product. The two rolls of Firechek were sold to E.
27 Feith Floor Covering, a distributor in New York, New York.
28 One roll was sold in September of 1970, and the second roll

1 was sold in September of 1979. The Firechek product was a
2 vinyl foam composition sheet laminated to an asbestos backing
3 sheet for use as a wall covering or bulletin board.

4 D. The exact chemical composition and specifications of
5 the products on Exhibit 2 are proprietary information and
6 trade secrets of the company, and, further, cannot be
7 determined at this time based on existing records. However,
8 the general formula mix used in manufacturing the flooring
9 products is set forth below.

10 Asphalt and vinyl asbestos tile products were of a
11 uniform composition through the entire thickness of the
12 flooring product. Vinyl asbestos tile products were manufac-
13 tured by combining vinyl resins, plastisizers, fillers,
14 binders, pigments and asbestos. The mixture was formed into
15 a sheet and cut into tiles. Asphalt tile products were
16 manufactured by combining binders, fillers, pigments,
17 asphalt, and asbestos.

18 Inlaid vinyl sheet goods consisted of a vinyl design and
19 wear layer on a support web of felt sheet. The design and
20 wear layer was manufactured by mixing together, through a
21 trade secret process, vinyl resins, plastisizers, pigments,
22 binders and fillers. The support sheet was manufactured by
23 combining asbestos, fillers and binders.

24 Cushioned inlaid vinyl sheet goods were manufactured in
25 a fashion similar to inlaid vinyl sheet goods, except for the
26 addition of a foam cushion layer. The design and wear layer
27 and foam cushion layer did not contain asbestos. The support
28 sheet was manufactured as set forth above.

1 Homogeneous vinyl sheet goods were of uniform com-
2 position manufactured by mixing together, through a trade
3 secret process, vinyl resins, plastisizers, pigments, fillers
4 and asbestos. Homogeneous vinyl goods also used a backing
5 similar to the backing used for inlaid vinyl sheet goods.

6 Chemically embossed vinyl sheet goods contained 4
7 layers: a backing or support sheet, a foam cushion layer, a
8 design layer and a clear wear layer. The support sheet was
9 manufactured as set forth above, the other layers did not
10 contain asbestos.

11 Vinyl sheet flooring contained 3 layers: a backing or
12 support sheet, a design layer and a clear wear layer. The
13 support sheet was manufactured as set forth above. The other
14 layers did not contain asbestos.

15 Vinyl asbestos tile products were manufactured at
16 Kearny, New Jersey; inlaid vinyl sheets goods were manufac-
17 tured in Wilmington, Delaware and Trenton, New Jersey; other
18 vinyl sheet goods were manufactured in Trenton, New Jersey,
19 and Marcus Hook, Pennsylvania; and the backing or support
20 sheets were manufactured in Finksburg, Maryland. Congoleum
21 also sold the backing used for vinyl sheet goods.

22 Chrysotile asbestos was the only type of asbestos used
23 in the asbestos-containing flooring products.

24 E-F. A description of the physical appearance of the
25 asbestos-containing flooring products may be found in
26 Congoleum's pattern books which may be copied upon request
27 and at Plaintiff's expense. A written description of each of
28 the hundreds of products listed on Exhibit 2 is neither

1 feasible, nor practical, and requiring such a written
2 description would impose an unreasonable and unnecessary
3 burden on Congoleum when pattern books are available for
4 copying. The asbestos containing flooring products were
5 intended for use as residential and commercial flooring.

6 G. Despite having made a reasonable and good faith
7 effort, Congoleum has been unable to determine whether any of
8 its products have appeared on the United States Government's
9 "Qualified Products List."

10 H. The asbestos in the products on Exhibit 2 was
11 provided by the following companies:

12 Johns-Manville Corporation
13 Carey Canada, Inc.
14 Lac D'Amiante Du Quebec (Lake Asbestos)
15 National Gypsum Company
16 Nicolet, Inc.
17 United Asbestos, Inc.

18 I. Yes. Exhibit 3 lists the distributors to whom
19 Congoleum sold its flooring products in the GEOGRAPHIC AREA,
20 including applicable dates. Congoleum cannot identify par-
21 ticular products, or amounts thereof, sold to particular dis-
22 tributors. Congoleum did not sell its flooring products to
23 any companies in the GEOGRAPHIC AREA other than the distri-
24 butors listed on Exhibit 3.

25 J. The documents evidencing the information sought in
26 these interrogatories are available for reproduction upon
27 request and at the requesting party's expense.

28 RESPONSE TO INTERROGATORY NO. 32:

Not applicable.

/////

1 RESPONSE TO INTERROGATORY NO. 33:

2 Not applicable.

3 RESPONSE TO INTERROGATORY NO. 34:

4 No.

5 RESPONSE TO INTERROGATORY NO. 35:

6 Congoleum did not enter into any agreements for the rebran-
7 ding of its asbestos-containing products.

8 RESPONSE TO INTERROGATORY NO. 36:

9 Congoleum did not enter into any agreements for the rebran-
10 ding of asbestos-containing products manufactured, sold, supplied,
11 or distributed by another person or entity.

12 RESPONSE TO INTERROGATORY NO. 37:

13 A. Congoleum provided warnings to its distributors, placed
14 warnings within the packaging of its flooring products
15 and also distributed warnings through field installation
16 seminars. Copies of the warnings, which depict their
17 size and color, will be provided upon request and at the
18 requesting party's expense.

19 B. Congoleum has photocopies, but not photographs, of these
20 warnings.

21 C-D. The warnings stated substantially as follows:

22 Warning issued from 1975-1985: Warning. Some resilient
23 floor covering and most felt backings contain asbestos
24 fibers. When removing or covering over such floor
25 covering, under no circumstances should it be sanded.
26 Such sanding of asbestos/containing material can place
27 fine particles of asbestos in the air which could cause
28 serious bodily harm.

Warning issued in 1985: Warning. Do not sand existing resilient flooring, backing or lining felt. These products may contain asbestos fibers that are not readily identifiable. Sanding of asbestos containing material can place fine particles of asbestos in the air. These asbestos particles if inhaled may caused serious bodily harm.

E. The persons most knowledgeable regarding warnings are:

Robert Aspy, Installation and Marketing Manager, employed by Congoleum from 1964 through 1995.

Michael Pomianoski, Vice-President of Marketing, employed by Congoleum from 1972 through 1998.

Messrs. Pomianoski and Aspy may be contacted through Congoleum Corporation, 3705 Quakerbridge Road, Suite 211, Mercerville, NJ 08619.

RESPONSE TO INTERROGATORY NO. 38:

The Congoleum name appeared on the front and reverse side of its sheet flooring products. The Congoleum name did not appear on its tile flooring products. Despite making a reasonable good faith effort to obtain the requested information, Congoleum has been unable to determine the time frame during which it placed the Congoleum name on its sheet flooring products.

RESPONSE TO INTERROGATORY NO. 39:

No.

RESPONSE TO INTERROGATORY NO. 40:

No.

RESPONSE TO INTERROGATORY NO. 41:

A-C. Congoleum issued product catalogues and guides and other advertising during each of the years it manufactured asbestos-containing flooring products, from 1947

- 1 through 1983.
- 2 D. The purpose of the documents was to promote the use of
- 3 Congoleum's products.
- 4 E. Copies of some, but not all, of those documents presen-
- 5 tly exist and are available for reproduction upon
- 6 request and at the requesting party's expense.
