Dear Mr. Wylie:

At your request, we have reviewed Vista Polymer's reports concerning two vinyl chloride releases occurring on June 27 and August 8, 1986. Our technical review of the information provided to EPA indicates that both vinyl chloride releases were violations of the National Emission Standards for Hazardous Air Pollutants as codified at 40 C.F.R. Part 61. Enclosed please find, an assessment of each vinyl chloride release, emphasizing the basis for EPA's decisions.

If we can provide any additional assistance, please do not hesitate to contact me or Dick DuBose at 404/347-2904.

Sincerely yours,

James T. Wilburn, Chief
