Subject: WESTINGHOUSE ELECTRIC ATT'D LETTER.

Our Sealing Components sales rep in Pittsburgh, Mr. Ed Fisher, has been experiencing some resistance to asbestos containing products. The attached letter is one such incident. Since these aren't Ed's lot, he couldn't advise regarding them. Please reply to Westinghouse on those items which you handle.

Also, Ed would appreciate knowing what course of action you have taken as it might be of assistance to him on his products. He can be reached by phone at 412-[redacted]
