At the present time we have 116 diagnosed cases of asbestosis.

All 116 have filed a workers compensation claim.

Forty-nine of the 116 have petitioned the compensation court for a formal hearing. (Two of this 49 have lung cancer along with the asbestosis.)

Of the 116 diagnosed cases, 99 have anywhere from 5 percent to 100 percent disability.

It was not uncommon to hire 15-20 people a year for vacation relief, usually June 15 - September 15.
