DOCUMENT DESCRIPTION: Letter to Dr. Gardner from Vandiver Brown

August 12, 1946

Dr. Leroy U. Gardner,
The Saranac Laboratory,
Saranac Lake, N.Y.

Asbestos Dust Experiments

Dear Dr. Gardner:

Enclosed you will find copies of two letters dated July 30th and August 9th, respectively, from Mr. J. F. D. Rohrbach, Executive Vice-President of Raybestos-Manhattan, Inc. The first letter came just after I had received copy of yours of July 26th to Mr. Huehleck and I accordingly sent Mr. Rohrbach a copy of your letter, feeling that it provided the best possible answer to the question he had raised.

The second letter makes a suggestion which, if it were feasible for you to adopt it, might point an avenue of appeasement or assuagement. If my interpretation of his suggestion is correct, it would appear that perhaps a statement of conclusions, which your longer monograph would be calculated to support, is the type of thing he has in mind.

May I have your thoughts on this point?

Sincerely yours,

Vandiver Brown,
Secretary.
