Dear Dr. Kehoe:

I want to thank you for your letter of December 27. I have read it with care and hope to be able to drop you a line about it in a few weeks. Just at the moment, we have been swamped with work in connection with a new Bulletin now going to press, which contains an exceptional amount of material calling for close reading and verification.

Very truly yours,

F. J. Schlink

Dear Dr. Kehoe:

I thought you would surely be interested to see what fruit-tions, and particularly Dr. Cardiff who is a strong believer in the toxicity of arsenic and lead and lead arsenate, have done lead poisoning.

If you should be interested enough in the misrepresentation of your work to write the magazine or Dr. Cardiff, or both, I am having copies of your letters for our files, and of any re-

Very truly yours,

F. J. Schlink
