DU PONT INPUT TO NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS (OCTOBER 14, 1975, FEDERAL REGISTER)

Attached is the EPA response to our comments submitted on the then proposed subject regulation in the October 25, 1974 Federal Register. Our comments based on your input appeared to reduce the potential operation problem inherent in the original proposed standard. Hopefully most unscheduled "renovation" can be categorized as "routine renovation" and reported once per year. Thought you might be interested - thanks for your comments.
