Paul Zajicek, Executive Director, National Aquaculture Association requested a meeting on March 28th. Past conversations have been beneficial for the Association and they would like them to continue. Topics they will address may include expressing thanks for expediting bird depredation permitting for the double crested cormorant, revisiting the Lacey Act in light of the recent memo by Mr. Jorjani about the Migratory Bird Treaty and the ecological risk screening summaries posted to the FWS webpages, and potential joint efforts by the National Invasive Species Council Secretariat and US aquaculture to prevent or respond to nonnative species introductions.
