

RLM

VCM PERSONNEL MONITORING PROGRAM

I. PURPOSE

Compliance with OSHA Regulation 29 CFR 1910.1017(d).

II. ASSIGNMENT OF PRIORITY

All facets of this program that are necessary to achieve and maintain compliance with the referenced regulation shall receive priority over competing uses for manpower and equipment which are not essential to compliance with other regulations. If it becomes necessary to choose between, or among, this and other regulations, the Environmental Engineers and OSHA Coordinator shall do so.

If obstacles arise which are beyond the scope of responsibility of the above, they shall pursue disposition of the matter with the appropriate managers.

III. ASSIGNMENT OF RESPONSIBILITIES

| 3. Coordinate | P. E. Mosser |

III. ASSIGNMENT OF RESPONSIBILITIES (cont.....)

1. Maintain official files.

R. L. Martin

IV. APPROVAL

The assignments listed are basically in existence but may not have been committed to writing. This should be done to insure proper coordination of the monitoring program.

To permit adequate review, this listing will be offered for approval at the VCM Control Team Meeting on 3/24/76.
