Mr. Glen Butler
Area Director
Occupational Safety and Health Administration
Federal Office Building - Room 734
234 Summit Street
Toledo, Ohio 46304

Dear Mr. Butler:

REF: OSHA-1, No. 320

This is our seventh and final progress report for correction of alleged violations stemming from an inspection made on 2-4-76.

The following is a report on the remaining item.

Citation	Item	Corrective Action Taken
1	1	Rewiring of lighting in the Lining and Block Departments was completed on 8-16-76. Wiring has been inspected and approved by the state electrical inspector.

Sincerely,

A. P. Staszak

SUBJECT: OSHA VIOLATION - USE OF AIR PRESSURE ON A PORTABLE CONTAINER, ABATEMENT DATE 3/2/76

Effective 3/2/76, use of air pressure to transfer the Pliobond adhesive from the 55 gallon drums to the Devilbiss Pressure vessels, at the bond line must be discontinued.

This measure is necessary to comply with an earlier OSHA citation and because of a delay in delivery of an acceptable pumping system (expected arrival 3/2/76).

Failure to discontinue use of the air pressure may result in an additional citation and fine.

A. P. Staszak
