Dear Sirs:

It is my understanding that your firm supplies "Hot-Tops" to Republic Steel Corporation, 1040 Pine St., S.E., Warren, Ohio for ingot moulds in their Basic Oxygen Furnace operations.

My office has received a request from employees of the B.O.F. to secure from you a component list of materials used in the manufacture of Foseco-Profax "Hot-Tops."

Further, if asbestos is used in the manufacture of this product, would you please indicate what percentage is used.

I want to thank you in advance for your cooperation.

Very truly yours,

Thomas E. Fender
Vice-Pres. & Chr. Safety Committee
