Subject: Re: Australia meeting

Matthew -- surprisingly, we actually do not not have access to wifi in the building. I am so sorry but there is a cafe in the bottom of our building that has wifi and of course the Reagan building has it as well.

We would be happy to guide you to the cafe.

M: Do you think it would be possible to jump on a call at noon tomor from a corner of your office? Preferably with WIFI so I can use my computer to follow a presentation. If not I assume that the RR Center has wifi and I can find someplace in their lobby as well.
