TO ALL CONTRACTORS & CONTRACTOR/DISTRIBUTORS:

GENTLEMEN:

ATTACHED ARE TWO COPIES OF AN ENVIRONMENTAL HEALTH INVESTIGATION CONDUCTED FOR US BY WILLIAM R. BRADLEY & ASSOCIATES, ENVIRONMENTAL HEALTH CONSULTANTS IN NEWARK, NEW JERSEY.

SINCE THERE HAS BEEN SOME CONCERN AND PUBLICITY IN THE NEWSPAPERS ABOUT THE POSSIBLE ADVERSE EFFECTS OF EXPOSURE TO ASBESTOS, WE FELT EXTREMELY IMPORTANT TO HAVE THIS STUDY MADE. IT WAS DONE STRICTLY IN ACCORDANCE WITH TEST SPECIFICATIONS AS ISSUED BY THE U.S. PUBLIC HEALTH SERVICE. THE THRESHOLD LEVEL VALUE BEYOND WHICH IT IS UNSAFE TO BE EXPOSED TO ASBESTOS, IS RESPIRABLE ASBESTOS DUST IN THE CONCENTRATION OF 5 MILLION PARTICLES PER CUBIC FOOT OF AIR, OR MORE. WE WERE PLEASED TO RECEIVE THE RESULTS THAT OUR PRODUCTS CAME WELL BELOW THE THRESHOLD LEVEL, AND THIS, EVEN AT THE SHOULDER OF THE MAN OPERATING THE GUN. THE RESULTS OF 3,900,000 AND 3,700,000 AT THE OPERATOR'S SHOULDER ARE EXTREMELY GOOD, AND WE ARE VERY PROUD OF THIS. IT IS JUST AS SIGNIFICANT THAT AT 20 FEET FROM THE OPERATOR, THERE IS PRACTICALLY THE SAME QUANTITY OF DUST CONCENTRATION AS WOULD BE FOUND IN NORMAL AIR, NAMELY 1,900,000 PARTICLES, AND 1,700,000 PARTICLES FHTA AND HTB RESPECTIVELY.

WE WOULD SUGGEST THAT YOU REVIEW THIS REPORT THOROUGHLY AND MAKE FULL USE OF IT AS THE NECESSITY ARISES. WE HAVE REASON TO BELIEVE THAT AT THE PRESENT TIME, WE ARE THE FIRST MANUFACTURER OF SPRAYED ASBESTOS MATERIALS TO SUBJECT ITS PRODUCTS TO THIS TEST, AND GET SUCH OUTSTANDING RESULTS.

IT IS ALSO OUR SUGGESTION THAT THIS REPORT BE REVIEWED BY ALL OF YOUR PERSONNEL, TO IMPRESS UPON THEM THE IMPORTANCE OF THE DUST FACTOR, AND THE TREMENDOUS ADVANTAGE THAT ASBESTOSPRAY NOW HOLDS IN THIS POSITION IN THE FIELD. WE HAVE QUANTITIES OF THIS REPORT AVAILABLE FOR YOU. AT YOUR REQUEST, IN AS MANY COPIES AS YOU MIGHT REQUIRE. THEREFORE, PLEASE ADVISE US AT ONCE AS TO THE QUANTITY YOU WILL NEED, AND WE WILL BE VERY HAPPY TO FORWARD SAME TO YOU IMMEDIATELY.

105

VERY TRULY YOURS,

ASBESTOSPRAY CORPORATION

Paul S. Maco
