GME to HAP 7/30/74

Subject: Price Correction - Opalon 411 and R-1069

Dear Gus:

It has come to my attention that the Opalon 411 and R-1069 prices as noted in my previous memo have been understated by 0.500¢ per pound. The correct price for these products is 22.41¢ per pound for Opalon 411 and 26.40¢ per pound for Opalon 1069. The error occurred due to a double subtraction of the 0.5¢ per pound volume discount for both of these products. All other product prices are accurate as originally stated. I hope that this has not caused you any inconvenience.

Cordially,

G. M. Ellsworth
Plant Manager
