Dr. Robert A. Kehoe
The Kettering Laboratory
College of Medicine
Eden Avenue
Cincinnati 19, Ohio

Dear Dr. Kehoe:

One of our associated mining operations, Tsumeb Corporation Limited, located in South West Africa, has recently commissioned a new smelting plant.

For the purpose of correlating the results of mine porphyrin tests and haemoglobin estimations to the degree of lead absorption, they require reliable blood analyses.

Dr. Don Fowler of Lead Industries Association has suggested your laboratory as the best source for such analyses and we would be pleased to have you send us complete details of procedure and cost of this service.

As the plant is in operation, the matter is becoming quite urgent and we would appreciate your early advice and instructions.

Thank you.

Yours very truly,

H. W. VOLKMAN
