Medical Dept, Ethyl Corp.
405 Lexington Avenue
New York City

Dear Sir:

I have been exposed to concentrated tetraethyl lead solution, through prolonged inhalation of vapor and contact with the liquid on hands and clothing from a leaking quart size container of l-T mix.

Because no immediate, severe physical effects have occurred, I have been refused medical examination by the medical officer. Since other medical facilities are not available, I am writing to request advice as to whether future trouble is to be expected as a result of this exposure.

Yours truly,

(Sgd.) Cpl. Meyer Freedman
