

December 9, 1988

Dear Vinyl Chloride Panel Members:

As decided at the November 29 conference call, Dr. Bill Gaffey has prepared the enclosed scope of work that many of the Panel companies will be requested to follow. If I receive an adequate indication of interest from the Panel to resolve the issue identified in Bill's letter, I will ask Dr. Otto Wong at Environmental Health Associates to supply you with the information pertinent to your company.

Please call me at 202/887-1192 if your company will be able to provide the necessary manpower to follow up on Bill's recommendation.

Wishing you happy holidays,

Has Shah

September 23, 1988

Dear Vinyl Chloride Panel Members:

The conference call tentatively scheduled for September 29 or 30 is cancelled. A new date will be set up after checking with Panel members for maximum participation.

Meanwhile, please review the enclosed September 15 letter from Dr. Bill Gaffey that summarizes his meeting with Dr. Brian Bennett of ICI, England. The background information leading to this meeting was sent to you earlier, but also is enclosed for your ready access.

At our conference call in early October, we will discuss the EHA's interim report that was sent to you earlier and a course of action for resolving discrepancies between the EHA study and the Angiosarcoma Registry.

Sincerely,

Hasmukh C. Shah, Ph.D.
Manager

September 12, 1988

Dear Vinyl Chloride Panel Members and Research Coordinators:

The draft report "Reassessment of Liver Cancer Among Vinyl Chloride Workers" was sent to you on August 3 for your review and comments. I would like to schedule a conference call for those of you who are interested to discuss this report. The following dates have been selected for the conference call:

September 16 or 20

Please call Jill Gallagher at 202/887-1191 to let her know which of the above dates is open on your calendar. She then will call you with the date which is convenient for the most members.

Sincerely,

Has Shah / 98
