WHITE PAINTS IN OIL (Paste)

There is a very general demand amongst master painters and contractors for a good white paint in paste form, ground in oil. With our experience as white lead grinders and as prepared paint makers, we are in a position to particularly well fill this demand, and can recommend to you the following product as being of very satisfactory quality and moderate in price, considering the materials used and the fine grinding. Superior for interior flat finish or under-coating when thinned with turpentine.

PRICES ON APPLICATION

	1 and 2 lb. tins	12½ lb. tins	25 lb. tins
Excello Pure White Paint, per lb.			

PURE DISTEMPER COLORS (Paste)
