Dear Mr. Newton,

Silicosis and Asbestosis

fiaro

Could you please let me know whether our sub-contractors and labourers are insured against the possible effects of these diseases? If so, are they automatically covered under the Workmen's Compensation Act, or is there separate insurance and, if so, what is the premium?

The reason for this request is that our customers Alexander Macquire Ltd., have received a Government Contract and one of the questions they are required to answer is as to whether their men are insured in this way. They are desirous of adopting the same policy as our own, whatever that may be.

Yours faithfully,

Snook
