I. APPROVAL OF PREVIOUS MINUTES

The minutes of the December 15, 1971 meeting not being available, as yet, no previous minutes were submitted for approval.

II. BRIEF JOINT SESSION

At a very brief joint session of the two Working Groups, that preceded the separate meetings of the Capacitor and Transformer Working Groups, it was agreed that if drafts of guidelines are approved after this meeting, they could be submitted for review by the parent ANSI C107 Committee. This decision was made in response to questions as to whether or not it would be necessary to hold additional sessions of the Working Groups, before submitting recommendations to the parent Committee.

It was noted that copies of information on "PCB Analytical Sensitivity" and "Answer List for Responding PCB Inquiry" were mailed to all members prior to this meeting. (EXHIBITS "A" and "B", respectively).

III. CAPACITOR WORKING GROUP MEETING
A. Pozefsky, Chairman

The Working Group reviewed copies of proposal on assignments with respect to various parts of the capacitor guidelines, made at the December 15, 1971 meeting, that were distributed by mail, prior to this meeting, or distributed at this meeting.

SECRETARY'S NOTE

The record of the results of the discussions at this meeting is recorded in Mr. R. D. McClain's letter of March 1, 1972, attached as EXHIBIT "C".

IV. TRANSFORMER WORKING GROUP MEETING
E. L. Raab, Chairman

The Working Group reviewed copies of proposals on assignments with respect to various parts of the transformer guidelines, made at the December 15, 1971 meeting, that were mailed prior to this meeting, or distributed at this meeting.

The Chairman indicated that he will assemble the revised revisions developed at this meeting and, in cooperation with the Chairman of the Capacitor Working Group, make every effort to arrive at a final proposal for submission to the parent ANSI Committee C107, as soon as possible.

The Committee unanimously approved the following format for the various parts of the proposed guidelines, which will be coordinated with the format for the capacitor guidelines:

A. Introduction

B. Definitions - Types of transformer askarel

C. Toxicity, safety and precautions

D. Transformer enclosure marking

E. Receiving, storage and handling

F. Water and vapor effluents - sampling, concentration analysis and processing

G. Disposal

H. Transformer manufacturers' and utilities' service shops.
