COPY FOR DR. KEHOE.

HF/B.

14th July 1939.

L.B. Roberts Esq,
Casilla de Correo 1704,
BUENOS AIRES,

Dear Les,

I wish to refer to my letter of the 29th June., in which I sent you a copy of the blue book of medical regulations for translation. I have just heard from Dr. Kehoe to the effect that translations of these are already being prepared, and that you consider at the moment it is not necessary for the Portuguese language to be included.

I gather that these are being printed locally, and would therefore be grateful if we could have a supply sent on to us to hold in London office. I suggest 100 copies of the blue book of regulations are sufficient, and about 20 wall charts.

I am just wondering whether the booklets would be applicable to the Ethyl Gasoline Corporation or Associated Ethyl. If the former is referred to, perhaps it would not be too great a job to have some modified to the latter wording. This reference only occurs in a few places.

Yours sincerely,

HF

c.c. to Dr. Kehoe.
