

Lyon 9.2. 1961

Dear Sir,

I am making at present
a thesis of Doctor in Medicine's de-
gree at the Lyons Faculté de Médecine,
on the toxicology of organo-metallic
compounds.

I am at a loss to choose bet-
ween the numerous works that have
been published on the pharmacology of
tetraethyl lead.

I know you are expert on the
subject. I should be much obliged
to you if you could tell me...

works I must refer to. Particular
I should receive willingly reprints
your own publications.

Similarly I shall receive with
interest informations about other organic
lead compounds, or other organometallic
compounds.

Thanking you in advance I
have, dear Sir, the honour to remain
very respectfully yours.

Sincerely yours J. L. Argué
