FILE NAME: Allied Signal Bendix (ASB)

DATE: 1972 Aug 31

DOC#: ASB083

DOCUMENT DESCRIPTION: Memo RE OSHA Asbestos Emission Project - Progress Report

Internal
Memorandum

Bendix Friction Materials Division

Date August 31, 1972 Letter No

Troy, New York

To DISTRIBUTION

From Mr. J. S. Fountain

Subject OSHA Asbestos Emission Project - Progress Report

1. We are now receiving all AJ-2 in plastic bags. Purchasing has contacted all of our asbestos suppliers and it appears that we will have no trouble getting all grades of asbestos in plastic bags.

   As soon as the holding device for the disposal bag is available we will set up a procedure for disposal of the asbestos bags by the mixer operators.

2. A new type of dump bucket is being tried in the disc brake briquetting operation.

3. A trip has been planned to visit the Johns-Manville asbestos mill to see what they have done to control asbestos dust. Among other things, an "automatic" bag opener and disposal unit will be observed.
