Summaries

AIR

Alaska SIP/2008 Lead NAAQS Infrastructure Requirements

AIR

Final rule of the EPA approves revisions to the Alaska SIP regarding infrastructure requirements for the 2008 lead NAAQS. The rule does not address infrastructure elements related to nonattainment new source review, nonattainment planning requirements, or certain interstate transport requirements previously approved in an Aug. 4, 2014, final rule (79 FR 45103). The rule is effective Sept. 11, 2017. Contact: Kristin Hall; EPA Region 10, Office of Air and Waste; 206-553-6357; hall.kristin@epa.gov. Citations: 40 CFR 52.70

Regulatory Update

AIR

Designations for the 2015 Ozone National Ambient Air Quality Standards

AIR

Notice of the EPA announces the withdrawal of the one-year extension, until Oct. 1, 2018, of the deadline for the agency to issue initial area designations for the 2015 ozone NAAQS, which were established in an Oct. 26, 2015, final rule (80 FR 65292). The agency extended the deadline in a June 28, 2017, notice (82 FR 29246) to allow additional time to evaluate issues related to the standards. The EPA now intends to reassess whether there are areas with underlying technical issues, whether there are state designation recommendations that the agency intends to modify, and whether for any area there is insufficient information to make a designation. The EPA administrator may still determine that an extension of time to complete designations is necessary, but the original statutory deadline of Oct. 1, 2017, to make area designations is now applicable. Contact: Carla Oldham; EPA, Office of Air Quality Planning and Standards; 919-541-3347; oldham.carla@epa.gov. Citations: 40 CFR 81

82 FR 37318 (08/10/2017)

Regulatory Update

AIR

District of Columbia SIP/Regional Haze

AIR

Final rule of the EPA approves a revision to the District of Columbia SIP for regional haze. The revision includes a five-year progress report towards reasonable progress goals for regional haze and a determination of adequacy of the existing regional haze SIP. The rule is effective Sept. 11, 2017. Contact: Sara Calcinore; EPA Region 3; 215-814-2043; calcinore.sara@epa.gov. Citations: 40 CFR 52.470

Regulatory Update

AIR

Florida SIP/2010 NO2 NAAQS Infrastructure Requirements

AIR

Direct final rule of the EPA approves revisions to the Florida SIP concerning the infrastructure requirements for the 2010 one-hour nitrogen dioxide (NO2) NAAQS. The revision addresses monitoring and data system requirements. The rule is effective Oct. 10, 2017, unless adverse comments are received by Sept. 11, 2017. Contact: Andres Febres; EPA Region 4, Air, Pesticides, and Toxics Management Division; 404-562-8966; febres-martinez.andres@epa.gov. Citations: 40 CFR 52.520

Regulatory Update

AIR

Florida SIP/2010 NO2 NAAQS Infrastructure Requirements

AIR

Proposed rule of the EPA would approve revisions to the Florida SIP concerning the infrastructure requirements for the 2010 one-hour nitrogen dioxide (NO2) NAAQS. The revision addresses monitoring and data system requirements. A concurrent direct final rule adopts the revisions, effective Oct. 10, 2017. Comments are due Sept. 11, 2017. Contact: Andres Febres; EPA Region 4, Air, Pesticides, and Toxics Management Division; 404-562-8966; febres-martinez.andres@epa.gov. Citations: 40 CFR 52.520

Regulatory Update

AIR

Florida SIP/Air Permitting, Compliance Assurance Program

AIR

Proposed rule of the EPA would approve portions of revisions to the Florida SIP that update non-Title V air permitting and compliance assurance program requirements. The revisions add 17 air general permits available to owners or operators of air emission sources as long as certain requirements are satisfied. The revisions also address new source preconstruction permitting requirements, stationary source control strategy programs, and emissions monitoring at stationary sources. In addition, the revisions add a definition of North American Industry Classification System, address public notice requirements, update test methods, and remove references to ozone nonattainment areas and an outdated form. Comments are due Sept. 11, 2017. Contact: Michele Notarianni; EPA Region 4, Air Planning and Implementation Branch; 404-562-9031; notarianni.michele@epa.gov. Citations: 40 CFR 51.160 through 51.164, 52

Regulatory Update

AIR

Florida SIP/Interstate Transport Infrastructure Requirements

AIR

Proposed rule of the EPA would approve revisions to the Florida SIP concerning the infrastructure requirements for the 2010 one-hour nitrogen dioxide (NO₂) NAAQS. The revision addresses interstate transport requirements to prevent contribution to nonattainment by or interference with maintenance in another state (prongs 1 and 2). Comments are due Sept. 11, 2017. Contact: Andres Febres; EPA Region 4, Air, Pesticides, and Toxics Management Division; 404-562-8966; febres-martinez.andres@epa.gov. Citations: 40 CFR 52.520

82 FR 37384 (08/10/2017)

Regulatory Update

AIR

Kentucky SIP/Jefferson County RACT Requirements

AIR

Proposed rule of the EPA would approve revisions to the Jefferson County portion of the Kentucky SIP regarding reasonably available control technology (RACT) for two major sources of nitrogen oxides (NO_x). The revisions address standards of performance for graphic arts facilities using rotogravure or flexographic printing and changes to the Texas Gas Transmission NO_x RACT plan. The revisions also remove the volatile organic compound bubble rule for the General Electric plant in Louisville and address changes to the Louisville Medical Steam Plant NO_x RACT. Comments are due Sept. 11, 2017. Contact: Joel Huey; EPA Region 4, Pesticides and Toxics Management Division; 404-562-9104; huey.joel@epa.gov. Citations: 40 CFR 52

82 FR 37375 (08/10/2017)

Regulatory Update

AIR

New Jersey SIP/Source-Specific Emissions Limitations

AIR

Final rule of the EPA approves revisions to the New Jersey SIP for ozone. The revisions consist of source-specific reasonably available control technology determinations for controlling nitrogen oxides for four water bath heaters for the Transcontinental Gas Pipeline Corp., LNG Station 240, in Carlstadt, and for two boilers for the Joint Base McGuire-Dix-Lakehurst in Lakehurst. The revisions also include limits on fuel use and total number of hours of operation at Transcontinental's LNG Station 240 and limits on fuel use resulting in a reduction in natural gas use at Joint Base McGuire-Dix-Lakehurst. The rule is effective Sept. 11, 2017. Contact: Anthony Gardella; EPA Region 2, Air Programs Branch; 212-637-4249; gardella.anthony@epa.gov. Citations: 40 CFR 52.1570

82 FR 37308 (08/10/2017)

Regulatory Update

AIR

North Carolina SIP/Interstate Transport Good Neighbor Provision

AIR

Proposed rule of the EPA would approve revisions to the North Carolina SIP regarding the good neighbor provisions of the 2008 eight-hour ozone NAAQS. The agency proposes to determine that the SIP contains adequate provisions to prohibit emissions within the state from contributing significantly to nonattainment or interfering with maintenance of the 2008 eight-hour ozone NAAQS in any other state and that the SIP meets the requirements of prongs 1 and 2. Comments are due Sept. 11, 2017. Contact: Ashten Bailey; EPA Region 4, Air Planning and Implementation Branch; 404-562-9164; bailey.ashten@epa.gov. Citations: 40 CFR 52

Regulatory Update

AIR

Pennsylvania SIP/Allegheny County Open Burning Standards

AIR

Direct final rule of the EPA approves revisions to the Allegheny County portion of the Pennsylvania SIP concerning open burning. The revisions clarify and codify provisions concerning materials that may be burned; the size of burn piles; setback requirements; use of chimneys, fire pits, and outdoor fireplaces; and burning restrictions on air quality action days. The rule is effective Nov. 8, 2017, unless adverse comments are received by Sept. 11, 2017. Contact: Gregory Becoat; EPA Region 3; 215-814-2036; becoat.gregory@epa.gov. Citations: 40 CFR 52.2020

Regulatory Update

AIR

South Carolina SIP/Prevention of Significant Deterioration, Nonattainment NSR

AIR

Direct final rule of the EPA approves portions of revisions to the South Carolina SIP concerning prevention of significant deterioration (PSD) and nonattainment new source review (NSR) permitting. The revisions update the definition of “major stationary source” to include thresholds that correspond to precursors of ozone in serious and extreme ozone nonattainment areas. The revisions also remove “particulate matter (PM) emissions” and “PM” from the definition of “regulated NSR pollutant” and expand the definitions of “baseline actual emission” and “projected actual emission” to include emissions associated with malfunctions in determining PSD and nonattainment NSR applicability. In addition, the revisions update internal references. The rule is effective Oct. 10, 2017, unless adverse comments are received by Sept. 11, 2017. Contact: Brad Akers; EPA Region 4, Air, Pesticides, and Toxics Management Division; 404-562-9089; akers.brad@epa.gov. Citations: 40 CFR 52.2120

Regulatory Update

AIR

South Carolina SIP/State Trading Programs

AIR

Proposed rule of the EPA would approve a revision to the South Carolina SIP concerning the Cross-State Air Pollution Rule (CSAPR). The revision replaces federal implementation plan requirements for large electricity generating units (EGUs) to participate in the federal trading program for annual emissions of nitrogen oxides (NOx) and in one of two federal trading programs for sulfur dioxide (SO2) with a substantively identical requirement for such EGUs to join a new state trading program for NOx and SO2. The revision also eliminates the FIP emission standards addressing interstate transport requirements for the 1997 fine particulate matter NAAQS. Comments are due Sept. 11, 2017. Contact: Ashten Bailey; EPA Region 4, Air, Pesticides, and Toxics Management Division; 404-562-9164; bailey.ashten@epa.gov. Citations: 40 CFR 52

ENDANGERED SPECIES

Texas Hornshell Endangered Listing

ENDANGERED SPECIES

Notice of the U.S. Fish and Wildlife Service reopens the comment period for an Aug. 10, 2016, proposed rule (81 FR 52796) that would list the Texas hornshell, a freshwater mussel species from New Mexico, Texas, and Mexico, as an endangered species. The agency also extends the final listing determination to Feb. 10, 2018, to obtain clarifying information to resolve a significant disagreement on the interpretation of limited surveys and the current conservation status of the species in Mexico. Comments now are due Sept. 11, 2017. Contact: Chuck Ardizzone; USFWS, Texas Coastal Ecological Services Field Office; 281-286-8282. Citations: 50 CFR 17

ENDANGERED SPECIES

Washington State/Marine Mammals Incidental Take

ENDANGERED SPECIES

Notice of the National Marine Fisheries Service announces the receipt of a request from the Washington State Department of Transportation for authorization to take five species of marine mammals incidental to scour repair activities at the US 101/Chehalis River Bridge in Aberdeen, Wash. The authorization would allow take in the form of Level B harassment of the California sea lion, gray whale, harbor porpoise, harbor seal, and Steller sea lion over 12 days between July 16 and Sept. 30, 2018. Comments are due Sept. 11, 2017. Contact: Shane Guan; NMFS, Office of Protected Resources; 301-427-8401

GENERAL ENVIRONMENT AND SAFETY
Arizona/Nogales Interconnection Project
GENERAL ENVIRONMENT AND SAFETY

Notice of the Energy Department announces the receipt of amendments to an application from Nogales Transmission LLC, of Dallas, for a presidential permit to construct, operate, maintain, and connect an electric transmission line between the U.S. and Mexico. The Nogales Interconnection Project includes an approximately five-mile long overhead transmission system originating in Nogales, Ariz., and crossing the U.S.-Mexico border with a total power transmission capacity of up to 300 megawatts. The amendments would relocate the international border crossing 25 feet east and connect the project to the UNS Electric Inc. transmission system at the proposed Gateway Substation rather than the existing Valencia Substation. The agency has prepared a draft environmental assessment for the project. Comments or motions to intervene are due Sept. 11, 2017. Contact: Christopher Lawrence; DOE, Office of Electricity Delivery and Energy Reliability; 202-586-5260; Christopher.Lawrence@hq.doe.gov

South Atlantic Region Snapper-Grouper Fishery Management Plan

GENERAL ENVIRONMENT AND SAFETY

Notice announces the intention of the National Marine Fisheries Service, in collaboration with the South Atlantic Fishery Management Council, to prepare a draft environmental assessment regarding a proposed amendment to the snapper-grouper fishery for the South Atlantic region fishery management plan (Amendment 43). The agency has decided to reduce the scope of Amendment 43 from that proposed in a Jan. 6, 2017, notice of intent to prepare a draft environmental impact statement (82 FR 1720). The current proposal would only revise the process for determining the commercial and recreational annual catch limits for red snapper, with the goal of implementing the new limits in July 2018. A hearing will be held during the council's meeting scheduled for Sept. 11-15, 2017, in Charleston, S.C. Comments are requested, but a due date is not specified. GENERAL ENVIRONMENT AND SAFETY
Texas/Stratton Ridge Expansion Project
GENERAL ENVIRONMENT AND SAFETY

Notice of FERC announces the schedule of environmental review for the Stratton Ridge Expansion Project in Brazoria, Chambers, Lavaca, San Jacinto, Shelby, and Waller counties in Texas. The project, proposed by Texas Eastern Transmission LP and Brazoria Interconnector Gas Pipeline LLC, both of Houston, involves the construction and operation of facilities to create 322,000 dekatherms per day of firm transportation capacity to deliver natural gas from multiple receipt points on Texas Eastern's interstate pipeline system to a delivery point on Brazoria Pipeline's intrastate pipeline system. The issuance of the environmental assessment is scheduled for Oct. 5, 2017, and the 90-day federal authorization decision is due Jan. 3, 2018. GENERAL ENVIRONMENT AND SAFETY
Tobacco Products Subject to FDA Authority
GENERAL ENVIRONMENT AND SAFETY

Notice of the Food and Drug Administration announces the availability of the second edition of a guidance for industry (82 FR 22338; 05/15/2017) concerning the three-month extension of certain tobacco product compliance deadlines relating to the May 10, 2016, final deeming rule (81 FR 28974). The rule extends the agency's existing authority over conventional tobacco products to currently marketed products, including electronic nicotine delivery systems, cigars, pipe and waterpipe tobacco, gels and dissolvable nicotine products, and to future tobacco products not currently marketed. The rule also prohibits the sale of "covered tobacco products" to individuals under the age of 18 and requires the display of health warnings on cigarette tobacco, roll-your own tobacco, and covered tobacco product packages and in advertisements. The second edition further extends certain compliance dates for the final deeming rule. Comments may be submitted at any time. Contact: Gerie Voss; FDA, Center for Tobacco Products; 877-287-1373; CTPRegulations@fda.hhs.gov

GENERAL ENVIRONMENT AND SAFETY
West Virginia/Rover Pipeline Project
GENERAL ENVIRONMENT AND SAFETY

Notice announces the intention of FERC to prepare an environmental assessment for the proposed amendment to an application submitted by Rover Pipeline LLC, of Houston, for the Rover Pipeline Project in Marshall County, W.Va. The project would involve construction and operation of facilities at the previously approved and under construction Majorsville Compressor Station. A third 3,550 horsepower natural gas compressor unit would be installed at the compressor station, and new equipment would be run at the Majorsville Meter Station, which would bring the station to a total of 10,650 horsepower. The proposed facilities also would

increase the point capacity of the stations to 400 million cubic feet per day. Comments are due Sept. 4, 2017. Contact: FERC, Office of External Affairs; 866-208-3676; FERCONlinesupport@ferc.gov
