6 77

ADVANTAGES TO BE DERIVED:

To put the Asbestos Bag opening area within the Asbestos Fiber limits as specified by OSHA.

Duplicate equipment was ordered on CAVB-217 for our Van Buren plant and the Flintkote Co.' A. C. Plant at Ravenna, Ohio is in the process of closing down, as per copy of W. Carl memo, February 11, 1977, the bag opener is now at Baltimore, Maryland, and has been made available to CAPCO. Six to seven months time will be saved by transferring this machine to Ragland plant.
