I want to take this opportunity to thank you again for attending our Anniston VPP Celebration. Your attendance emphasizes to everyone on the Anniston Team the high priority that the entire organization places on safety. We are continuing to receive many positive comments from everyone involved and many others in the community.

There were two very positive articles which ran in the local newspaper, The Anniston Star, last week. The local TV station visited the plant on Tuesday and ran a story on the 6:00 pm news Tuesday. The same story was featured on the local segment of CNN Headline News. Copies of the newspaper articles are attached.

Thanks again, we at Anniston appreciate your support.

W. L. DeFer
