Field Measurements and Observations (Cont.)

(Cont) **Laurel Field Unit (LFU) 1-9 #5**

**Team's observations/comments: We Inspected 8 wells that day, with a total of 9 people: 4 from Petro Harvester, 2 from MSOGB and 3 from EPA. All inspected wells were located in areas that were fenced and gated. All the pumping units and injection pumps were in good condition and operated almost silently. The well location seemed to be kept clean and organized.**

(TA status: inactive 2 years or more. IN status: inactive less than 2 years. PBTD: Plug back total depth - not total well depth)
