DANA CORPORATION

## INTRA-COMPANY COMMUNICATION

SUBJECT

SPRAYCRAFT FIREPROOFING MATERIAL

DATE July 8, 1968

TO

Mr. H. B. Bartlett

Enclosed is a brochure on SprayCraft sprayed asbestos mineral fiber for use in the new U.S. Steel Building in Pittsburgh.

I think the material is self-explanatory and we would certainly appreciate any help you can give the Victor Division in having U.S. Steel specify this material in the 500 ton order which is pending.

C. C. Dybvig
