Administrator, thanks very much. I was disappointed cause I was looking forward to seeing you plus I was with several highly successful and respected biotech execs and we had an important issue to discuss and inform. Would it be possible to reschedule and come back to DC to see you sometime in the next few weeks ? Be safe and thanks for your leadership and service to our country. Warm regards Roy Absolutely. And we can do it as soon as it fits with your schedule. Let me know some dates and I will ensure it gets coordinated. Look forward to it, and again, apologies.

# Deliberative Process Privilege/Ex. 5

Great! On all fronts.

RJ – pls add Samantha to our scheduling meetings. Thank you.

Ok. What scheduling meetings?

Whatever mtg is occurring to process meeting requests, etc, or scheduling generally, if those are happening.

Oh yeah sure. Anyone is invited actually. They are excruciating .

I bet they are fun.

She may not come a second time.

Hahaha.

Good word from Tina Neville. See following:

You're doing an excellent job. Thank you - sincerely - for being my Christian political mentor.

This morning met with Taiwan Amb/Rep to US regarding trade and was in Calgary on Monday to meet Alberta Minister of Energy. Ready to use these diplomacy skills and contacts for EPA.

I keep forgetting to call Doug. I'll give him a call this weekend. I got the same message from DOJ. You may want to just give that number a call back. They'll directly connect you to sessions. I'll track down a number another way too

You'll receive a call in just a moment from Jeff sessions.
