

DEPOSITION OF R. EMMET KELLY, M.D.

June 12, 1990

In your opinion, based on medical probability, is there no causal relationship, a possible causal relationship, a probable causal relationship, or a proven causal relationship between exposure to the Yusho PCB oil which was contaminated with furans and other chemicals and each of the following:

asthma	none__	possible__	probable__	proven__
skin irritation	none__	possible__	probable__	proven__
skin rashes	none__	possible__	probable__	proven__
hearing problems	none__	possible__	probable__	proven__
headaches	none__	possible__	probable__	proven__
kidney problems	none__	possible__	probable__	proven__
swelling	none__	possible__	probable__	proven__
hypertension	none__	possible__	probable__	proven__
high blood pressure	none__	possible__	probable__	proven__
stomach problems	none__	possible__	probable__	proven__
sinus problems	none__	possible__	probable__	proven__
ulcerated esophagus	none__	possible__	probable__	proven__
prostate problems	none__	possible__	probable__	proven__
cysts	none__	possible__	probable__	proven__
pneumonia	none__	possible__	probable__	proven__
peeling of feet	none__	possible__	probable__	proven__
peeling of hands	none__	possible__	probable__	proven__
acne	none__	possible__	probable__	proven__
skin cancer	none__	possible__	probable__	proven__
boils	none__	possible__	probable__	proven__
flushing of skin	none__	possible__	probable__	proven__
skin discoloration	none__	possible__	probable__	proven__

unusual growth or loss of hair	none__	possible__	probable__	proven__
allergies	none__	possible__	probable__	proven__
hives	none__	possible__	probable__	proven__
profuse sweating	none__	possible__	probable__	proven__
problem with toenails	none__	possible__	probable__	proven__
problems with fingernails	none__	possible__	probable__	proven__
shortness of breath	none__	possible__	probable__	proven__
emphysema	none__	possible__	probable__	proven__
sores that won't easily heal	none__	possible__	probable__	proven__
bronchitis	none__	possible__	probable__	proven__
breathing problems	none__	possible__	probable__	proven__
throat problems	none__	possible__	probable__	proven__
increase or decrease in sensitivity to certain kinds of smells	none__	possible__	probable__	proven__
altered sense of taste	none__	possible__	probable__	proven__
epilepsy	none__	possible__	probable__	proven__
shaking or tremors of hands	none__	possible__	probable__	proven__
change in speech pattern	none__	possible__	probable__	proven__
numbness in hands and feet	none__	possible__	probable__	proven__
coordination problems	none__	possible__	probable__	proven__
unusual gait or walking characteristic	none__	possible__	probable__	proven__

stumbling	none__	possible__	probable__	proven__
problems with balance	none__	possible__	probable__	proven__
arthritis	none__	possible__	probable__	proven__
joint pain	none__	possible__	probable__	proven__
stiffness or soreness of muscles	none__	possible__	probable__	proven__
paralysis	none__	possible__	probable__	proven__
problems with bones	none__	possible__	probable__	proven__
swelling of joints	none__	possible__	probable__	proven__
rheumatism	none__	possible__	probable__	proven__
muscle spasms	none__	possible__	probable__	proven__
muscle weakness	none__	possible__	probable__	proven__
muscle twitching	none__	possible__	probable__	proven__
swelling of hands	none__	possible__	probable__	proven__
multiple sclerosis	none__	possible__	probable__	proven__
Parkinson's disease	none__	possible__	probable__	proven__
back problems	none__	possible__	probable__	proven__
disc problems	none__	possible__	probable__	proven__
back pain	none__	possible__	probable__	proven__
ringing in ears	none__	possible__	probable__	proven__
sounds in ears other than ringing	none__	possible__	probable__	proven__
hearing unusual noises	none__	possible__	probable__	proven__
problems with eyes	none__	possible__	probable__	proven__
problems with vision	none__	possible__	probable__	proven__
blurred vision	none__	possible__	probable__	proven__
glaucoma	none__	possible__	probable__	proven__

loss of eyesight	none__	possible__	probable__	proven__
seeing spots	none__	possible__	probable__	proven__
problems with reading	none__	possible__	probable__	proven__
problems with lights at night when driving	none__	possible__	probable__	proven__
cataracts	none__	possible__	probable__	proven__
see spots in sunlight	none__	possible__	probable__	proven__
irritated eyes	none__	possible__	probable__	proven__
eye disease	none__	possible__	probable__	proven__
inflamed or puffy eyes	none__	possible__	probable__	proven__
unusual redness of the eyes	none__	possible__	probable__	proven__
pus or discharge from eyes	none__	possible__	probable__	proven__
heart problems	none__	possible__	probable__	proven__
heart attack	none__	possible__	probable__	proven__
stroke	none__	possible__	probable__	proven__
tightness in chest	none__	possible__	probable__	proven__
tightness in heart area or pain	none__	possible__	probable__	proven__
unusually rapid or irregular heartbeat	none__	possible__	probable__	proven__
diabetes	none__	possible__	probable__	proven__
high blood sugar	none__	possible__	probable__	proven__
leukemia	none__	possible__	probable__	proven__
anaemia	none__	possible__	probable__	proven__
gout	none__	possible__	probable__	proven__
liver problems	none__	possible__	probable__	proven__
cirrhosis	none__	possible__	probable__	proven__

hepatitis	none__	possible__	probable__	proven__
tumors	none__	possible__	probable__	proven__
cancer	none__	possible__	probable__	proven__
food allergies	none__	possible__	probable__	proven__
motion sickness	none__	possible__	probable__	proven__
stomach problems	none__	possible__	probable__	proven__
ulceration of the esophagus	none__	possible__	probable__	proven__
problems with intestines	none__	possible__	probable__	proven__
stomach ulcers	none__	possible__	probable__	proven__
chronic diarrhea	none__	possible__	probable__	proven__
frequent constipation	none__	possible__	probable__	proven__
frequent nausea	none__	possible__	probable__	proven__
spells of vomiting	none__	possible__	probable__	proven__
frequent indigestion	none__	possible__	probable__	proven__
unusual weight gain	none__	possible__	probable__	proven__
unusual weight loss	none__	possible__	probable__	proven__
allergies to medications	none__	possible__	probable__	proven__
loss of appetite	none__	possible__	probable__	proven__
uncontrolled urge to eat	none__	possible__	probable__	proven__
colitis	none__	possible__	probable__	proven__
kidney pain	none__	possible__	probable__	proven__
bladder problems	none__	possible__	probable__	proven__
colon problems	none__	possible__	probable__	proven__
spleen problems	none__	possible__	probable__	proven__
rectal bleeding	none__	possible__	probable__	proven__

painful urination	none__	possible__	probable__	proven__
unusual color in urine	none__	possible__	probable__	proven__
blood in urine	none__	possible__	probable__	proven__
frequent urination	none__	possible__	probable__	proven__
dizziness	none__	possible__	probable__	proven__
periods of disorientation	none__	possible__	probable__	proven__
blacking out	none__	possible__	probable__	proven__
fainting	none__	possible__	probable__	proven__
memory loss	none__	possible__	probable__	proven__
amnesia	none__	possible__	probable__	proven__
disorientation	none__	possible__	probable__	proven__
speech disorder	none__	possible__	probable__	proven__
lethargy	none__	possible__	probable__	proven__
trouble sleeping	none__	possible__	probable__	proven__
insomnia	none__	possible__	probable__	proven__
trouble concentrating	none__	possible__	probable__	proven__
nervousness	none__	possible__	probable__	proven__
anxiety	none__	possible__	probable__	proven__
irritability	none__	possible__	probable__	proven__
injury to immune system	none__	possible__	probable__	proven__
predisposed to cancer	none__	possible__	probable__	proven__
depression	none__	possible__	probable__	proven__
change in personality	none__	possible__	probable__	proven__
unexplained crying	none__	possible__	probable__	proven__
claustrophobia	none__	possible__	probable__	proven__
vertigo	none__	possible__	probable__	proven__
