DOUGLAS AIRCRAFT COMPANY OF CANADA LTD.

Toronto AMF, Ontario (416) 677-4341

May 27, 1970

Monsanto Canada Ltd.
Chemical Division
175 Rexdale Blvd.
Rexdale, Ontario

Attention: Mrs. A. Eckersly

Gentlemen:

We wish to thank you for your cooperation in furnishing us information on your products. We desire similar information on the chemical, physical, and toxicological properties of your following products:

Enclosed are data sheets for each product. These data sheets are prepared as a guide for suppliers in furnishing information which will assist us in making recommendations with regard to local exhaust ventilation, protective clothing, electrical equipment, fire extinguishers, and similar items.

We consider Item 8g the most important part of the data sheet. Information in regard to a material's composition will be treated as confidential and used for the purpose of protecting the health and safety of Douglas employees and the safeguarding of its property. It will also be used for the purpose of complying with local, provincial and federal statutes and codes, and requirements of governmental agencies.

If you feel it necessary to withhold the exact formulation of a product, we would appreciate receiving a list of ingredients, including the approximate percentage of its major components. For example, if an exact formulation of a material is:

Methylene chloride	50%	Toluene	14.5%
Methyl ethyl ketone	35%	Benzene	0.5%

a satisfactory completion of Item 8g would be as follows:

Methylene chloride	Over 40%	Toluene	Less than 25%
Methyl ethyl ketone	20% – 40%	Benzene	Impurity

Your earliest reply will be greatly appreciated.

Yours very truly,

J. Whipp
Procurement
