

INTER-OFFICE MEMO TENNECO CHEMICALS, INC.

TO	Mr. G. Rozand	AT	Piscataway	DATE	September 20, 1977
FROM	Dr. R. T. Gottesman	AT	Saddle Brook	COPY TO	Mr. W. P. Anderson ✓ Mr. F. X. Ritter
SUBJECT	EPA -- VINYL CHLORIDE EMISSION STANDARD				

Please refer to the September 6th letter from Keller and Heckman to the SPI/PVC Safety Group, Manufacturing Technology Committee and Health Committee and in particular, to the enclosures from Scott Bowen relating to technical questions.

Will you please review questions concerning the necessity for duplicative emission control equipment, and the question regarding the increase in requirements for sampling when using batch stripping techniques. If you feel that these pose problems to the operating group, objections should be raised with EPA, and I would suggest that you arrange for this by writing directly to Joe Hadley at Keller and Heckman's office.

If we can be of any assistance, please let me know.

R. T. Gottesman
