Q-919

July 28, 1971

TO: Mr. F. L. MacDonald
FROM: Dean R. Thacker
SUBJECT: Occupational Safety and Health Report

An absolutely fantastic amount of paper has come to my attention recently concerning the Occupational Safety Federal requirements. This material is so voluminous and complex, that I frankly have not had the time to study and digest it in light of our operations.

If at all possible, it would be greatly appreciated if you could review these requirements or solicit assistance from the Safety Director's office, and our operations with Mr. Major to ensure that we are taking adequate steps for compliance.

HELP! and thanks.

Dean R. Thacker
