

Office of
The Chemical Examiner to Government
MEDICAL COLLEGE

Calcutta, 1st December 1938

Dear Dr. Kehar,

I expected a reply to my letter of the 3rd April which I wrote to you to explain the points raised in your letter of the 6th January and also to thank you for all the reprints so kindly sent by you. I wanted to know if you were satisfied with the explanation regarding the unusual variations in the lead content of urine of the Indians.

Yours truly

It was to be so unusual, has compelled me to write to you a ^{few} enquire of your health and also of your wonderful activities in the line of work taken up by you.

I would be glad if you kindly let me know how you are getting on now.

With kindest regards

Yours truly
K. N. Bagchi

R. A. Kehar, M.D.
