Subject: May 9 & 10 Tri-State Conference in Cincinnati, OH

Ken,
The 11th annual Tri-State Electric Utility Environmental Conference would be honored to have you keynote this year's event at 10:00 on May 10th, directly prior to the Indiana, Kentucky, and Ohio environmental agency leads at the Marriott Cincinnati North hotel. The event is free to regional utility representatives and we typically have 80 subject matter experts and management from large and small, investor owned, municipal, and cooperative electric utilities. The state environmental agency leaders have been a constant on our agenda and this year's theme is "stakeholder engagement" – when to do it, how to do it well, and why do it. On May 9th, we will hear from the Sierra Club and Kentucky Resource Council, as well as the utility perspective on stakeholder engagement supporting CCR compliance. I heard you speak at the Kentucky Governor's Conference on Energy and the Environment on Cooperative Federalism in 2017 and understand you are speaking at the MEC Sustainability and Environmental Health & Safety Symposium in Cincinnati in March (I am also on that event planning team). I hope your schedule will allow you to consider our event. Thanks and feel free to contact me with questions.

Richard Brewer
