CLINTON H. CRANE, President
WILLIAM H. BRIDGES, Vice President
RALPH W. BROWN, Secretary
J. L. ELLIOTT, Treasurer

June 10, 1929.

TO THE MEMBERS OF THE LEAD INDUSTRIES ASSOCIATION:

Beginning with the current issue, the scope of the Domestic Pig Lead Sales Report has been greatly enlarged to include data summarizing the pig lead sales records, data differentiating between new and all other business of reporting members, and data classifying the grades of pig lead sold.

As heretofore, the report gives a statistical picture of all the pig lead, domestic or foreign in origin, marketed by reporting members in the United States. With the exception of the changes noted below, the basis of reporting sales remains as previously outlined, (See report of Jan. 18, 1929).

Page 1. of the report shows a monthly summary of the "Sales Reported During Month Indicated" and gives average daily sales.

Page 2. shows a monthly summary of "Sales Made for Shipment in Month Indicated" and gives daily averages.

Page 3. shows the total weekly sales of reporting members distinguishing as sharply as possible between new business of members and sales made under old or existing arrangements with purchasers. For this purpose the sales tabulation has been divided into two columns, "Market" and "All Other" Sales respectively. In the "Market" column all strictly new business is reported, that is, sales made during the week at market prices, or even on an average price basis provided the business is new, i.e., placed without previous commitment, either actual or moral. Such an average-price sale is only reported as new or "market" business for a period extending to the end of the month following the current month. Tonnages sold on such a type of contract for shipment still further ahead are reported under the "All Other" column.

- 2 -

The "All Other" column is designed to include all those sales which are made on average-price contracts running on a yearly basis, or upon some other constant or protracted period. This column also includes that tonnage of lead which moves forward week to week from certain smelting plants to affiliated fabricating establishments and is not sold on the open market.

Page 4, classifies the total amount of pig lead sold each week according to grades. This classification is self-explanatory and is based upon the standard specifications of the American Society for Testing Materials.

The member companies contributing data to the Domestic Pig Lead Sales Report are as follows:

American Metal Co. Ltd.
American Smelting & Refining Co.
Bunker Hill and Sullivan Mining and
Concentrating Co.
Eagle-Picher Lead Co.
National Lead Co.
St. Joseph Lead Co.
United Metals Selling Co.
United States Smelting Refining & Mining Co.

Respectfully submitted,

F. E. Worman

Secretary.
