MacRAE'S Blue Book is Published in Five Volumes

The 87th edition of MacRAE'S Blue Book has been thoroughly up-dated to provide you the latest obtainable information for over 50,000 companies selling products and services to industry. In addition to headquarters location, listings include primary products and services, telephone numbers with area codes and locations and telephone numbers of sales office and distributors if provided by the listing company. Listings of companies advertising in MacRAE'S are prime vendors in **bold-face type**. When provided, MacRAE'S also publishes invested capital ratings of listing companies. (See "Key To Invested Capital Ratings" in Volume 1.)

PRODUCT INDEX
CATALOG INDEX

Here you will find sources for all the products you may be in the market to buy. Manufacturers of industrial equipment, products and materials are listed under specific product headings. All are alphabetically arranged in an easy to find manner for quick, convenient use.

Products are usually listed under the main noun as the key index word. For instance, "Contour Turning Lathes" is listed under capital "L" for "Lathes, Contour Turning." This arrangement is followed except in those few instances where the noun system would be obviously inappropriate. For instance, Air Conditioning Equipment is located under capital "A" at Air Conditioning, and not among the various classifications of Equipment.

There are no indefinite headings like "Goods" or "Supplies"; look always for the specific article desired. Where products are known by more than one name, cross references have been inserted for terms which are used less frequently and where it is felt they would contribute to more convenient and more efficient use of the listings.

Should you ever be seeking a hard to find item or a specialized service (such as a contract manufacturer who could handle your specific requirements), call our Reader Service Department. Extensive files on industrial suppliers are always at your disposal.
