Patsy,

Do I have the presentation that we agreed I could give at the AIH Conference in May??? I want to start working on that with our legal.

Thanks,

The API IH Task Force has set a deadline for presentations at the AIHce session of May 8th. There is currently 30 minutes scheduled for this topic and questions.

The Shanghai Benzene Study from an IH perspective
Chinese work environments have, until recently, allowed exposures up to 50 ppm. The Shanghai study was commissioned to evaluate the link between exposures, disease diagnosis and epidemiology.
