FOREWORD

This list classifies Metropolitan Group policyholders, as of July, 1943, according to the business, industry or service in which they are engaged as well as alphabetically and geographically. There is, in addition, a "Special List" (page 5) which is an alphabetical listing of companies that adopted Metropolitan Group Programs after the main body of this book was classified, and up to January 1, 1944.

In the main list, Companies that are concerned with more than one product are, in certain cases, listed under more than one heading. Supplementary listings are indicated by asterisks.

Companies insured under Wholesale and Group Annuities plans are included also. In addition the latter are given separate classification (page 119).

The alphabetical and geographical lists include the names of individual firms insured as members of a trade association, but, in the classified list, only the name of the association appears.
