intracompany memo

to	Mr. C. W. Lehnert	location	Tigard
from	Mr. V. A. Tinker	location	Marietta
subject	Asbestos Free Ready Mix	date	01-30-76

On January 30, 1976, an informal meeting was held between Messrs. Bill Ellis, D. C. Corkill, George Fowler, Robert Favero and myself.

Mr. Corkill asked if any of us had any comments what so ever in regards to our asbestos free Ready Mix.

I stated my comments and then was asked to put it in a letter form. My only contact and experience came about at the Milford plant when I was there on a versator trial in conjunction with asbestos free ready mix.

When helping out and pailing off the trial material the stench of the material was almost unbearable. It caused me to have a severe headache and the only relief was to get away from the area to gulp some fresh air. I commented that if an applicator was to experience similar ailments as I did, I feel we would surely hear a good bit of griping from it.

George Fowler than proceeded to open a can of asbestos ready mix and allowed each of us to inhale the fumes. To quote everyone present "it smelled terrible."

V. A. Tinker ^{BS.}
