X. SUMMARY OF REGISTER

This register lists the vessels which were reported during the period beginning July 1, 1952 and ending June 30, 1953. During this period, our representative visited various vessels in connection with the Navy Service Plan and in many cases, our representative was requested to supervise necessary repairs in order that the equipment aboard these vessels could be maintained or restored to satisfactory operating conditions.

During the above mentioned period, Navy Service Plan Reports No. 44 to No. 52 inclusive were published. Outlined below is a list showing the period covered by each report:

REPORT NO.

44	From 1 July 1952	to 1 September 1952
45	From 1 September 1952	to 1 October 1952
46	From 1 October 1952	to 1 November 1952
47	From 1 November 1952	to 30 November 1952
48	From 1 December 1952	to 31 December 1952
49	From 1 January 1953	to 28 February 1953
50	From 1 March 1953	to 30 April 1953
51	From 1 May 1953	to 31 May 1953
52	From 1 June 1953	to 30 June 1953

Note: In general, this volume was prepared in an identical manner as Volume No. 1, except for slight exceptions. Volume No. 1 contains much of the information regarding explanations of column headings and abbreviations.

1. EXPLANATIONS

In Sections 2 and 3 of this register, there appears a series of columns containing various headings. These headings are fully described in Section 1, Volume 1, Navy Service Plan Register. The only exceptions to these explanations are as follows:

1A. ARRANGEMENT OF INFORMATION IN SECTIONS 2 & 3

(a). The first column does not have any asterisks as none of the vessels listed in this volume were stricken from the Naval Vessels Register.

Sections 2 and 3 of this volume were arranged in the same manner as shown in Naval Vessels Register, Navships 18-1-18 dated 1 January 1953.

(h). The eighth column was added for reference to previous Navy Service Plan history of vessels tabulated in this volume. For example, let us take Reference No. 2. In this volume, this reference number refers to AF-28 HYADES. The eighth column shows 1 (13). This information means that any previous reports on this vessel can be identified by consulting Volume No. 1, Reference No. 13. In other words, reference to previous reports on the HYADES may be found in the space allotted for Reference No. 13 in Volume No. 1 of Navy Service Plan Register.

1B. ABBREVIATIONS OF INFORMATION IN SECTIONS 2 & 3

In Sections 2 and 3 of this register, there appears a series of abbreviations under the column headed Type and under the column headed Shipbuilding Yard. The abbreviations

(CONT'D)

under Type are explained on Pages 8 or 9 of Volume 1, Navy Service Plan Register. In this volume (Volume No. 2), there is only one abbreviation of types which does not appear on Pages 8 or 9 of Volume No. 1. This abbreviation is explained as follows:

CLC - CRUISER, TACTICAL COMMAND SHIP

All of the abbreviations as shown under Shipbuilding Yard are explained on Pages 12, 13 and 14 of Volume No. 1, Navy Service Plan Register.

Likewise, all abbreviations as shown under the column headed Navy Service Plan Report Number and Units are explained on Page 15, Volume No. 1, Navy Service Plan Register.

SECTION 2 - NAVAL VESSELS
(ARRANGED ALPHABETICALLY BY TYPE
& NUMERICALLY BY TYPE NO.)
