Chemours Letter to EPA Administrator Scott Pruitt (April 10, 2017) .pdf

Ms. Hale and Ms. Hupp,

I write to follow up on this note and the attached letter, with the goal of trying to confirm a date and time for a meeting with Administrator Pruitt.

Please let me know if you need more information or have questions.

Many thanks.

Greg

Subject: The Chemours Company - Letter to Administrator Scott Pruitt

Ms. Hale and Ms. Hupp,

Attached please find a letter directed to Administrator Pruitt from The Chemours Company, which includes a request for the scheduling of a meeting with Chemours' President and CEO, Mark Vergnano.

We trust our request for a meeting with Administrator Pruitt will receive a favorable response and I look forward to working with you to schedule the meeting in the coming weeks.

Please do not hesitate to contact me if you have questions or would like additional information.

Many thanks.

Greg

April 10, 2017

The Honorable Scott Pruitt
Administrator
United States Environmental Protection Agency
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

Dear Administrator Pruitt:

On behalf of The Chemours Company (“Chemours”), please accept our congratulations and best wishes for success in your new role as Administrator of the U.S. EPA.

Headquartered in Wilmington, Delaware, Chemours is global leader in titanium technologies, fluoroproducts and chemical solutions, providing our customers with solutions in a wide range of industries with market-defining products, application expertise and chemistry-based innovations. Our ingredients are found in plastics and coatings, refrigeration and air conditioning, mining and oil refining operations and general industrial manufacturing. Chemours flagship products include prominent brands such as Teflon™, Ti-Pure™, Krytox™, Viton™, Opteon™, Freon™ and Nafion™. We have approximately 7,000 employees, (some 5,000 of whom are located in the United States) and 26 manufacturing sites serving approximately 4,000 customers in North America, Latin America, Asia-Pacific and Europe.

As a leading U.S.-based chemical company, Chemours is extremely interested in the new leadership that you will bring to EPA, in terms of both high-level policies and day-to-day management of the agency. Because of this interest, we would appreciate the opportunity for our President and CEO, Mark Vergnano, to meet with you in your offices in Washington, D.C.

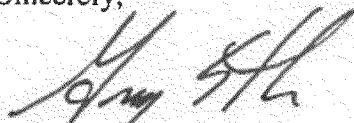

Mr. Vergnano is particularly interested in learning more about your views on how EPA can deliver on its core mission of protecting human health and the environment and, at the same time, promote U.S. investment and job creation via responsible environmental policies and regulations. We expect there is great alignment between you and Mr. Vergnano on this subject.

Mr. Vergnano also would like to share what Chemours is doing to put American innovation to work to create global, market-leading product opportunities, which support new U.S. manufacturing investments and jobs. And since a sizeable portion of this new U.S. investment is premised upon previous EPA policy decisions, Mr. Vergnano would like to discuss how policy consistency – and thereby U.S. leadership in global markets – can be maintained under your tenure at EPA.

We recognize both your and Mr. Vergnano's schedules are tight; nevertheless, we would like to suggest a date in the near term (May 15th) when we know Mark can make it to D.C. to meet with you. We look forward to hearing back from you if this date will work on your calendar.

More important, we look forward to a productive exchange of ideas and perspectives between you and Mr. Vergnano.

Sincerely,

Greg Smith
Director – Government Affairs

CC: Mr. Ryan Jackson
Ms. Michelle Hale
Ms. Sydney Hupp
