Hello [REDACTED]
Could you provide us with a photograph of the line that froze.
Also, id it relate to the flooded condensate?

([REDACTED] for info only)

Hi [REDACTED]
Thank you – also, we have updated the Part A form as there were both R22 and R125 emissions breaches.
We will get the Part B form over to you in due course, but it is thought that abnormal result was caused due to cold weather impacting air instrument lines.
Kind regards,
[REDACTED]
