Subject: FW: PFOA/PFOS Timing Update
Attachments: PFOA-PFOS Summary Table_5 11 16.docx

All,

This is close hold until the official release by EPA at 1330 today. Expect several e-mails from me throughout the day as we prepare for EPA's release of the lifetime health Advisories (LHA) for PFOA and PFOS. Attached is the list of 63 PWS that have detections above the LHA levels. Since it is likely that we (DON/DoD) will be the first blamed for contaminating public water, please look at this list quickly and identify if we have any Navy or USMC installations in close proximity to any of these sources and let me know so we can prepare for media and Congressional inquiries.

VR,
Richard

Folks

I just got a call from Eric Burneson at EPA with an update. The website will go live at 1:30 and the blog post will be at 2:00 -- an hour earlier. Also, Congressional Notification is delayed until 11:30.

He sent me the list of 63 locations from the UCMR#3 data (attached).

He does not have the Fact Sheet or FAQs, EPA Public Affairs is still working on them.

Alex is reaching out to ATSDR to see where they are with their FAQs.
